

# DO NOT BUY SOUTH AFRICAN GOODS!

*The United Nations, with the full support of the organisations in South Africa struggling against the infamous racial laws of the South African Government, has called for a full trade boycott of South Africa. The co-operative movement has declared its feeling of abhorrence at the apartheid policy in South Africa and the National Council of Labour has called for a personal boycott. One of the problems in applying the boycott in our shops has been the difficulty in obtaining alternative sources of supply. The Political Committee of the London Co-operative Society has obtained the following list of alternative sources from the Anti-Apartheid Movement, 89, Charlotte Street, London, W.1. It is publishing it for the information of co-operative buyers, and as an expression of support for the African people, who are enduring intolerable persecution and hardship at the hands of the white minority.*

## FRESH FRUIT
